

EPA

Public Meeting

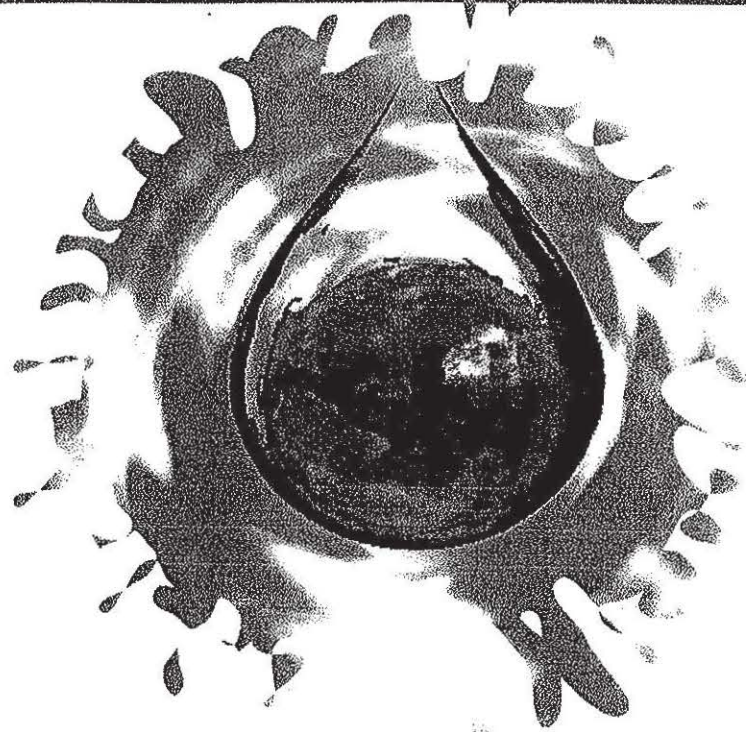

YOU ARE INVITED

The Environmental Protection Agency (EPA) has accepted an invitation from the Goliad County Groundwater Conservation District to hold a public meeting in Goliad regarding Uranium Energy Corp.'s (UEC) request for an aquifer exemption.

Should this exemption of a portion of the Gulf Coast Aquifer be granted, UEC will be permitted to conduct in-situ uranium mining in our drinking water supply aquifer.

Please plan on attending this important meeting. This is an opportunity for groundwater users in Goliad and adjacent counties to speak or submit written comments addressing the use of your aquifer and on conditions relating to the aquifer.

"Requirements to exempt a drinking water aquifer are defined in 40CFR, Chapter 146.4. A portion of an aquifer may be exempted if it does not currently serve as a source of drinking water and it cannot now and will not in the future serve as a source of drinking water because it is mineral bearing and it is so contaminated that it would be economically or technologically impractical to render that water fit for human consumption."

EPA Public Meeting
Julie Wimberly Memorial Homemaking Bldg.
Located at the Goliad County
Fairgrounds - US Hwy. 183 South
Goliad, Texas

Thursday, August 4, 2011

5:30 p.m - Registration

6:00 p.m. - Meeting

Groundwater District News

There will be a public meeting on August 4, 2011, Thursday, at 6 p.m. at the Julie Wimberly Building. This meeting will be an opportunity for the groundwater users of Goliad County to let their voices be heard concerning the Aquifer Exemption for the UEC permit Number UR03075. Representatives from the U. S. Environmental Protection Agency will be in Goliad to hear the citizens concerning this issue.

Please try to attend and bring someone with you to this very important meeting.

Also, just a reminder that the Groundwater District office will be closed July 4 - 8. If you need the assistance from someone at the District during this time please leave a message on the office answering machine.
